

Dear local League Presidents,

LWV US has been working with our office on a survey of current members, supporters, and recently lapsed members to get a better understanding about where members are engaging with League activities. The survey is currently only being sent to us in Wisconsin. While I knew a survey company was preparing the survey and providing the analytics, I wasn't aware that they would be sending the survey from the company, EMC Research. I mention this because the survey doesn't seem legitimate and some members have emailed me their concerns.

**Please be assured that the survey from EMC Research is legitimate and from LWV US.** I encourage you all to respond if you receive the survey. The survey includes questions about League activities, asks for your input on strengths and weaknesses of the organization, and asks for your opinion on priorities. The results will be shared with LWV WI and we will share them with you.

If your members ask you about the survey, please share this information. We will send a follow up message about the survey to those who received it as well.

Thank you for your attention and participation.

Please let me know if you have any questions.

Kind regards,

Erin
